**Furniture and Home Décor Product Samples from Joss & Main/Wayfair**

*A select sample of items I wrote up for Wayfair's Joss & Main flash sale site. As a home décor site, the emphasis was on furniture, accents, rugs, lighting, kitchen gadgets, and wallpaper from name brands like Kartell, Gus Modern, Thomas Paul, Kohler, and Le Cruset to niche artisan makers and white-label warehouse offerings. Bless him – our GM was a lover of the written word, recognizing that good copy sells – and we crafted original copy for every.single.item we put on the site. Translation? Thousands of SKUs a day. Here are a few:*
